OFFICE OF THE PRIVATE SECRETARY TO HIS EXCELLENCY THE GOVERNOR OF MADRAS.

Admission to the Prince of Wales's Royal Indian Military College, Dehra Dun.

Government House, Ootacamund, September 8, 1941.

No. 15.

In connexion with the admission of candidates to the Prince of Wales's Royal Indian Military College, Dehra Dun, the following information is published for the use of intending candidates:—

(1) The College provides a public school education on English lines for Indian and Anglo-Indian youths who desire subsequently to enter a cadet college with a view to obtaining commissions in the Indian Land Forces, the Indian Air Force or the Royal Indian Navy, and making one of those services their profession in life. The course of study at the College will, however, be such that, should a boy fail in the competitive examination for admission to a cadet college or for entry in the Royal Indian Navy, he will be in as favourable a position for entry to a university as if he had been educated at an ordinary school.

(2) Candidates will be selected from unmarried Indian and Anglo-Indian boys of—

(a) Provinces of British India.

(b) Indian States.

(3) Candidates must have attained the age of eleven years and be under twelve years on the 20th January 1942.

(4) Candidates should attach to their applications a medical certificate from the Officer Commanding a British or Indian Station Hospital or a Civil Surgeon to the effect that they are physically fit in all respects in accordance with Appendix A to this notification.

(5) The fees of students are Rs. 1,500 *per* each school year. This is a privileged rate and is liable to enhancement hereafter, if circumstances require. Any enhancement of fees that may hereafter be decided upon will, however, be applied to new entrants only. These fees will include tuition, messing, school servants and medical attendance of the ordinary kind and, on initial provision, one suit of the uniform to be worn by students when at the college. Charges on account of washing of cadets' clothing and mending their clothing, boots and shoes, as well as the cost of books and stationery (which will be supplied by the college) over and above the Government grant for this purpose will be met by the parents or guardians of the cadets.

In addition to the fees referred to above, the parent or guardian of a cadet will be required to deposit with the college authorities, on his entering the college, the sum of Rs. 50 which will be returned when the cadet finally leaves the college provided that all dues have been paid.

Should it be necessary for cadets to be admitted into a hospital (other than the college hospital), or to provide additional nursing sisters for the treatment of cadets in the college hospital, all charges incurred will be borne by the parents or guardians of the cadets.

A full term's notice is required to be given of intention to withdraw a cadet from the college. In the event of such notice not being given, the parent or guardian will be required to pay one full term's fees in lieu, unless it is considered that the circumstances in which the cadet was withdrawn are such as to call for special consideration (in this point final decision will rest with the Government of India). In cases where notice of withdrawal is given in the first half of the term preceding the term from which the cadet is to be withdrawn, the recovery of a full term's fees in lieu may be waived at the discretion of the Government of India.

(6) Remission of fees will be granted to August each year to the sons of Indian Officers or men who have served in the regular army, where the services and financial circumstances of the father warrant it. Such remissions are limited to Rs. 500 per annum in any one cadet and are granted for a year at a time, after which they are reviewed.

(7) A scholarship of the value of Rs. 1,140 will be available during 1942-43 and will be granted in accordance with the rules issued in G.O. No. 1033, Public (Political), dated 22nd May 1940.

(8) Parents or guardians of candidates for admission to the college, at the time of the submission of the applications, will furnish signed declarations (in duplicate) in the following form:—

"I, $\frac{\text{father}}{\text{guardian}}$ of , a candidate for admission to the Prince of Wales's Royal Indian Military College, Dehra Dun, declare that it is my desire that my $\frac{\text{son}}{\text{ward}}$ should make the Indian Army, Air Force or Royal Indian Navy his profession in life.

I further declare that I have made myself acquainted with the fees payable at the Prince of Wales's Royal Indian Military College, and subsequently, at the Indian Military Academy, Dehra Dun (viz., Rs. 3,650 for a course of 2½ years), and at the Royal Air Force College, Cranwell (viz., £286-5 for a course of 2 years), and expenditure to be incurred in connexion with the training of cadets for appointment as commissioned officers of the Royal Indian Navy (viz., £250 in the case of the Executive Branch and £375 for the Engineer Branch); and that I am able and willing to pay the prescribed fees and meet the expenditure in the case of the Royal Indian Navy, as also the incidental expenses.

I declare also that—

(a) if my $\frac{\text{son}}{\text{ward}}$ withdraws from the Prince of Wales's Royal Indian Military College before appearing at an examination for admission to the Indian Military Academy, the Royal Air Force College, Cranwell, or the Royal Indian Navy,

or

(b) if, having been declared successful at one of the examinations mentioned at (a) above, does not proceed to one of the institutions with the intention of adopting the Indian Army, Indian Air Force or Royal Indian Navy as his profession, *for reasons within his control or mine* (on which points final decision will rest with the Government of India), I shall be required to pay the full cost (Rs. 2,700 per annum) which Government may have incurred on his education at the Prince of Wales's Royal Indian Military College.

I declare also that my $\frac{\text{son}}{\text{ward}}$ is unmarried and that he will remain a bachelor whilst at the college and until he has completed, subsequently, a course at the Indian Military Academy, Royal Air Force College, Cranwell, or for admission to the Royal Indian Navy.

SECTION I—INTRODUCTORY.

In view of the continuance of the suspension of the constitution under section 93 of the Government of India Act, 1935, a Committee on Public Accounts under rule 134 of the Madras Legislative Assembly Rules consisting of members elected by the Assembly could not be constituted. His Excellency the Governor, however, constituted an *ad hoc* Committee as in the previous year consisting of his four Advisers, with the Adviser in charge of Finance as Chairman and the Secretary to Government in the Finance Department as Secretary, to examine the Appropriation Accounts for the year 1939–1940 and the Audit Report, 1941, in the manner prescribed by rule 135 of the Madras Legislative Assembly Rules, to consider any other matters which might be referred to it by the Finance Department and to submit a report containing the results of its examination and its recommendations.

2. We met on the 5th June 1941 and the following day to consider the report of the Auditor-General relating to the Appropriation Accounts of the Province for the year 1939–1940 and other matters referred to us.

The proceedings of our meetings are appended to this Report—Appendix A.

3. We were furnished with notes prepared by the departments of the Secretariat on the following matters mentioned in the Appropriation Accounts and Audit Report :—

(i) Unnecessary supplementary grants.

(ii) Unnecessary supplementary charged appropriations.

(iii) Reappropriations obtained unnecessarily or in excess of requirements.

(iv) Injudicious reappropriations and surrenders causing excess over allotments.

(v) Cases of non-surrender of savings.

(vi) Cases of unremedied or uncovered excesses.

(vii) Defective budgeting.

(viii) Other matters.

The Accountant-General was present at our deliberations and we desire to express our appreciation of the assistance and advice rendered by him at both the meetings.

The Secretaries and Deputy Secretaries of the departments of the Secretariat concerned (and heads of departments also, where their presence was considered desirable and could be arranged) were present when the subjects concerning them were considered by us.

We have examined in detail the several instances of financial irregularities brought to our notice and are satisfied that in the majority of cases the action taken by the Government was adequate.

4. Our specific recommendations on the more important points considered are mentioned in the next section of this report, while other items are included in Appendix B.

We were also furnished with a memorandum showing the action taken by Government on the report of the *ad hoc* Committee on the Accounts of 1938–1939. The memorandum together with our remarks will be found in Appendix C.

SECTION II—COMMENTS ON APPROPRIATION ACCOUNTS

General Summary of the Figures and Accuracy of Budgeting.

5. The following table shows the total amounts of grants—Voted or Authorized and Charged—and the actual expenditure against them :—

	Total grants	Total expenditure.	Savings (—).	Percentage of savings to the total grants.
(1)	(2)	(3)	(4)	(5)
	LAKHS,	LAKHS,	LAKHS,	PER CENT.
	Rs.	Rs.	Rs.	
Voted or Authorized ..	18,07·18	16,34·12	— 173·06	9·6
Charged	2,67 24	2,77 11	— 10·13	3·8
Total ..	20,94 42	19,11·23	—1,83 19	8·7

The Public Accounts Committee which examined the accounts of 1932–1933 considered a saving of 3 per cent as a reasonable limit under normal conditions and remarked that the percentage of saving during 1932–1933 was the lowest on record since 1921–1922.

The savings from 1932–1933 have been as follows :—

Year.	Percentage of savings under		
	Voted or Authorised.	Charged. (Non-Voted).	Total of Voted or Authorised and Charged.
(1)	(2)	(3)	(4)
1932–1933	3·48	1·0	3·03
1933–1934	6·23	0·5	5 81
1934–1935	6·38	0·5	4 61
1935–1936	3 74	0·4	3·10
1936–1937	5·89	1·0	5 03
1937–1938	6 25	3·5	4 90
1938–1939	1·00	2·3	2·00
1939–1940	1·60	3·0	3·10

We observe that a substantial part of the savings in 1939–1940 occurred under Grant XXXVII. Loans and Advances bearing interest due mainly to loans to local bodies being granted only for works of urgent necessity in view of the situation arising out of the War and to the non-utilization of almost the entire provision of Rs. 75 lakhs made for the grant of loans for the relief of rural indebtedness and under XXVII. Famine due to the non-adjustment of contributions to the Famine Relief Fund.

6. *Excesses over Charged and Voted or Authorized grants.*—The following statement shows the excesses over Charged and Voted or Authorized grants for the year 1939–1940 which require regularization :—

Number and name of grant	Final grant.		Expenditure.		Excess.	
	Charged.	Voted or Authorized.	Charged.	Voted or Authorized.	Charged.	Voted or Authorized.
(1)	(2)	(3)	(4)	(5)	(6)	(7)

1 VI. Motor Vehicles Acts	..	1,95,700	..	1,97,004	..	1,304
2 X. District Administration and Miscellaneous	36,17,000	..	19,88,705	..	51,109	..

5 XIV. Electricity.	..	36,50,500	..	40,42,831	..	3,92,331
6 XV. Education.	2,80,900	..	2,80,495	..	186	..
7 XVI. Medical ..	..	81,52,200	..	82,04,875	..	68,675
8 XXVIII. Pensions	36,30,000	..	36,81,716	..	81,116	..
9 XXXI. Capital Outlay on Irrigation.	12,000	..	13,005	..	1,005	..

The reasons for the excesses were explained to us.

We observe that excesses under six of the grants (Motor Vehicles Acts, Electricity, Education, Medical, Pensions and Capital Outlay on Irrigation) occurred in 1938–1939 also, that the excesses under Police, Medical and Electricity were due to special conditions created by the war and that the other excesses of any magnitude were the result of changes in accounting procedure. We recommend that these excesses may be sanctioned by His Excellency the Governor.

7. *Irregular or unnecessary reappropriations, etc.*—We note that there were three cases of unnecessary reappropriations. These are dealt with in paragraph 12 *infra* and Items (7) and (14) in Appendix B.

8. *Grant X—District Administration and Miscellaneous—General Administration—Miscellaneous—Expenditure from Rural Reconstruction grants* [*page* 12, *paragraph* 11 (5) *and pages* 73–74, *paragraph* 3 *of the Accountant General's report*].—The Accountant-General has drawn attention to the non-surrender of savings amounting to Rs 1·19 lakhs under rural reconstruction grants. The original grant under this head was Rs. 7·13 lakhs of which Rs. 2·63 lakhs were resumed thus reducing the final grant to Rs. 4·50 lakhs. A sum of Rs. 3·31 lakhs only was utilized leaving a balance of Rs. 1·19 lakhs unspent.

It was explained that the savings were not surrendered as the scheme of expenditure from the Government of India Grant was in the third year of operation and it was considered that the initial delay and difficulties in the framing and settling of individual schemes and the procuring and determining of local contributions had been more or less overcome and that, as in the previous year, there would be large expenditure in the closing months of the year, particularly as Government had frequently emphasized the need for accelerating progress. We were also informed that as against an unspent balance of about Rs. 8 lakhs on 31st March 1941 to be spent in full before the 31st March 1942 the budget for 1941–1942 contemplates an expenditure of Rs. 5 lakhs only, but that as the Government of India have delegated to the Provincial Government the power to relax the conditions relating to contribution it is expected that expenditure will be more rapid.

We endorse the expectation that the relaxation of the rule regarding contribution will enable more rapid progress to be made and hope that steps will be taken to spend the balance of grant in full before the 31st March 1942. We recommend that, if the department doubts the possibility of doing so, application should be made to the Government of India in good time to obtain an extension of time beyond 31st March 1942.

9. *Grant XIV—Electricity—XLI. Electricity schemes—Working expenses—Thermo-Electric schemes—Bezwada scheme—Suspense—Uncovered excess [page 13, paragraph 11 (6) and page 98 of the Accountant-General's report].*—The Accountant-General has brought to notice uncovered excesses to the extent of Rs. 92,708 under this head. It was explained that the excesses were due to (a) increase under billing suspense owing to non-payment of bills in time by a certain cement company, (b) early arrival of materials and payment for emergency stock not anticipated at the time of the final modification and (c) devolution of materials from works not anticipated, that the excesses could not be foreseen at the time of the final modified appropriation and that the cement company's default in the payment of bills has not yet been fully rectified though the outstandings had been substantially reduced. We were also informed that budgeting under Suspense is difficult owing to the peculiar nature of the transactions and that variations as between the estimates and actuals are to be expected.

Even allowing for the fact that variations as between the estimates and actuals are to some extent inevitable we are not satisfied that in this particular case the Electricity department could not have supplied closer estimates. We recommend that in future more care should be taken to obtain supplementary grants or make timely surrenders and we hope that steps will be taken to collect the outstandings against the cement company as soon as possible.

10. *Grant XXIV—Civil Works—Works—Other Suspense accounts—Uncovered excess [page 13, paragraph 11 (8) and page 155 of the Accountant-General's report].*—The Accountant-General has brought to notice an uncovered excess of Rs. 64,515 under the above head mainly due to the contribution of the Bellary Municipality for Brucepet Drainage Scheme not being made in time for adjustment. It was explained to us that it was expected at the time of submitting the final modifications under "Suspense" that the contribution from the Bellary Municipality on account of the Brucepet Drainage Scheme (viz., Rs. 71,680) which was completed in December 1939, would be realized and adjusted in the accounts of the year and that the Commissioner of the Municipality was addressed by the Executive Engineer on 5th February 1940 and reminded from time to time and that, thus, though the Public Works Department made every effort to secure payment from the council, refusal to pay was intimated only at the very end of March, too late for the Chief Engineer to arrange to cover the excess.

We are not satisfied that the Bellary Municipal Council had any justification for holding up payment merely on the ground that working plans had not been received for the completed drainage scheme and recommend that the Local Administration Department should be asked to investigate the action of the Municipal Council and the Commissioner in the matter.

11. *Grant XXIX—Stationery and Printing—Renewals and replacements from the depreciation fund—Non-surrender of savings [page 12, paragraph 11 (5) and page 155 of the Accountant-General's report]*—The Accountant-General has brought to notice that savings to the extent of Rs. 27,713 were not reappropriated to cover the excess under the sub-head "Deduct—Charges." It was explained to us that the savings were due to smaller expenditure on stores from England on account of the international situation and restricted shipping facilities and restricted manufacture of types as a result of mechanical composition.

We were informed that in recent years the original budget appropriations under the sub-head had generally been overpitched while the lapses ranged from 9 to 29 per cent of the final appropriation.

We recommend that the question of taking credit for probable savings at a suitable percentage, say 10 per cent, of the original appropriation should be examined and that steps should be taken to effect a closer approximation as between the final appropriation and actuals.

12 *Grant XXXIII—Capital outlay on electricity schemes—Supply of electric power to Madura—Reappropriation obtained unnecessarily or in excess of requirements*—[*page* 11, *paragraph* 11 (3) *and page* 198 *of the Accountant-General's report*].—The original provision was Rs. 20,000. An additional appropriation of Rs. 97,200 was obtained later. The actual expenditure amounted to Rs 55 760 only resulting in a saving of Rs. 62,340 in the final grant. The additional appropriation of Rs. 97,200 was obtained to provide for the cost of the fourth 3,000 K.V.A. transformer at Madura sanctioned subsequent to the preparation of the budget and for construction of certain additional buildings and feeder lines. The savings of Rs. 62,340 in the final grant were mainly due to two reasons It was expected that, on receipt and erection of a fifth 5,000 K.V.A. transformer at Coimbatore, a 3,000 K.V.A. transformer from that place would be released and transferred to Madura in 1939–1940. Although the 5,000 K.V.A. transformer was received at Coimbatore in February 1940, its erection could not be completed till July 1940, as the oil for the transformer did not arrive. Owing to the non-erection of the fifth 5,000 K.V.A transformer in 1939–1940 the 3,000 K.V.A. transformer could not be released for use at Madura and debit raised. Hence a saving of Rs. 30,000 which, it was suggested, could not be anticipated at the time of final modification. Further there was a saving of Rs 21,740 on account of credits consequent on devolution of materials which was not anticipated at the time of final modification.

We consider that in view of the late date of the arrival of the 5,000 K.V.A. transformer for Coimbatore the Electricity department should have realized that the 3,000 K.V.A. transformer could not be released and put in commission elsewhere before the end of the year and that the saving of Rs. 30,000 should have been foreseen. We consider that the explanations in such cases would be more illuminating if dates were given.

13. *Matters brought to the notice of the Committee by the Finance Department*.—The Finance Department placed before us a list of schemes of expenditure treated as "new services" in 1940–1941 for our opinion as to which of them were "new services" and which were not and a note suggesting an amendment to the ruling in the New Services pamphlet regarding the employment of gazetted officers even for short periods. The notes together with our remarks will be found in Appendix D.

} *Witnesses*

Mr. J. SANTOS, *Accountant-General, Madras.*

The paragraphs in the Audit Report, 1941, and the portions of the Appropriation Accounts, 1939–40, relating to the Development, Education and Public Health, Home and Finance Departments and the notes prepared by these departments in that connexion were taken up for consideration. The Accountant-General assisted the Committee in their deliberations.

2. *Paragraph 11 of the Audit Report—Non-surrender of savings—Grants IV, X, XVII and XXIX.*—With reference to the sub-head "A Forest produce removed by Government Agency" under Grant IV Forest, the Committee were informed by the Finance Secretary that there had been no failure to surrender savings under the Forest grant in recent years and they accepted the explanation given by the department.

As regards the non-surrender of savings under Grant X. District Administration, the Chairman pointed out that as against an unspent balance of about Rs. 6 lakhs on the 31st March 1941 to be spent in full before the 31st March 1942, the Budget for 1941–42 contemplated an expenditure of Rs. 5 lakhs only. He also pointed out that year after year expenditure had been far short of the budget provision. The Deputy Secretary, Development Department, explained that in the previous year expenditure in the last quarter of the year had been as great as in the first three quarters and that it was expected that progress would be equally good in 1939–40 and this probably explained why Collectors overestimated the probable amount of expenditure in the last part of the year. He added that the recent relaxation of the rule regarding contributions would no doubt stimulate expenditure. The Committee endorsed that expectation and repeated their recommendation of last year that suitable steps should be taken so that there might be no unspent balance which might lapse to the Government of

India on 31st March 1942. They also recommended that, if the department doubted the possibility of doing this, application should be made to the Government of India in good time to obtain an extension of time beyond 31st March 1942.

With reference to the non-surrender of savings under Grants for water-supply and drainage purposes—Grant XVII—the Chairman and the Accountant-General pointed out that there was an improvement in 1939–40 as compared with the previous year and a further improvement in 1940–41 and the Committee expressed the hope that the progressive improvement would be maintained.

In considering the non-surrender of savings under Grant XVII, Public Health—Expenditure from the Fund for the development of rural water-supply, Mr. Hood and Mr. Rutherford commented on the detailed figures and explanations for various districts placed before the Committee in a separate statement supplied by the Education and Public Health Secretary and it was considered that there were certain extenuating circumstances. The Committee were informed that instructions had been issued for a closer control of demands and expenditure and they expressed the hope that as the Board of Revenue was now responsible there would be closer and better control.

The Committee accepted the explanation for the non-surrender of savings under Grant XXIX. Stationery and Printing—Renewals and replacements from the Depreciation Fund. The Chairman invited attention to the fact that in recent years the original budget appropriation under the head had generally been overpitched and that the lapses as compared with final appropriation ranged from 9 to 29 per cent and the Committee recommended that the question of taking credit for probable savings at a suitable percentage, say 10 per cent, of the original appropriation might be examined.

3. *Paragraph 11 of the Audit Report—Uncovered excess under Grant XXXVII.*—As regards the uncovered excess under Loans for water-supply and drainage schemes and other public health purposes the Committee were informed by the Finance Secretary that ordinarily the actuals under loans to local bodies are higher than the original budget appropriation owing to unforeseen demands in the course of the year and usually nearly equal to the final appropriation. He explained that in submitting proposals for surrender a substantial loan sanctioned for disbursement within the year had been overlooked. The Committee expressed the hope that the oversight of 1939–40 would not be repeated.

4. *Paragraph 11 of the Audit Report—Unnecessary supplementary grants, etc., under Grants XIII and XXXVI.*—The Committee elicited the fact that there had been no unnecessary supplementary grants or reappropriations under Grant XIII in recent years and accepted the explanation. As regards Grant XXXVI, the Home Secretary explained that the provision was an extraordinary one made at the special instance of the High Commissioner to provide for Indian students who might be left stranded in England without funds as a result of the outbreak of war and that it was impossible to anticipate how much the High Commissioner might disburse before the end of the year. The Committee accepted the explanation as the item was an extraordinary one in an extraordinary year.

5. *Government Commercial concerns—Financial Review—Development and Home Departments.*—The Committee considered the reports and had no special remarks to make except as regards the Cinchona department where they considered that the considerable profits earned required consideration. They endorsed the decision of the Government in paragraph 4 of G.O. No. 4436 Home, dated 4th November 1940, that selling prices should not be increased (by increase of cost of raw materials) until the materials purchased at increased rates are actually used for manufacture.

6. *Matters brought to notice by the Finance Department.*—A memorandum showing the action taken by Government on the report prepared for the Public Accounts Committee on the Accounts of 1938–39 was perused and approved.

A list of schemes of new expenditure treated as New Services in 1940–41 was perused and the Committee agreed with the decisions of Government in all cases. They also decided that free grants of transformers to industrialists might be treated as 'New Services' if the cost of a transformer exceeded Rs. 10,000.

They accepted the amendment proposed to the existing ruling which requires that the temporary employment of any Gazetted officer even for short periods must be treated as a 'New Service,' but after obtaining the views of the Accountant-General decided that the limit should be raised from Rs. 2,500 to Rs. 5,000 as the former was considered to be too low to be of any real use.

The cases of expenditure in excess of final appropriations, charged and voted, under certain grants mentioned in paragraphs 7 and 8 of the Audit Report were then considered by the Committee. The Committee noted that excesses under six of the grants (Motor Vehicles Acts, Electricity, Education, Medical, Pensions and Capital Outlay on Irrigation) occurred in 1938–39 also, but did not pursue the matter as the excesses under Police, Medical and Electricity were due to special conditions created by the war and the only other excesses of any magnitude were the result of changes in accounting procedure. They recommended that the excesses under the several Grants in 1939–40 might be sanctioned by His Excellency the Governor.

The Committee then adjourned to meet at 11 a.m. on 5th June 1941.

STONEHOUSE HILL, OOTACAMUND, 4th June 1941. W. SCOTT BROWN.

Mr. J. SANTOS, *Accountant-General, Madras.*

The paragraphs in the Audit Report, 1941, and the portions of the Appropriation Accounts, 1939–40, relating to the Local Administration, Public Works and Revenue Departments and the

notes prepared by these departments in that connexion were taken up for consideration with the assistance and advice of the Accountant-General.

2 *Paragraphs 10 and 11 of the Audit Report.*—Non-surrender of savings, unremedied or uncovered excesses, defective budgeting and unnecessary supplementary grants or reappropriations—Grants II, VII, X, XIV, XXIV, XXVI, XXX, XXXIII and XXXVII.

The Committee considered the question of non-surrender of savings under Grant XXVI, Civil Works—Grants-in-aid—g. D. Grants to local bodies for roads and bridges other than village communications and the figures of the previous years were placed before them. Though there was closer approximation between the actuals and the final appropriations in 1939–40 than in the preceding years and the improvement was maintained in 1940–41 also, the Committee observed that there was still scope for improvement as the variation exceeded 10 per cent of the final appropriation.

In considering the reappropriation obtained unnecessarily for 'Grants to local bodies for village communications' under the same Grant, the Committee observed that the defect was due to the failure of five district boards to anticipate and surrender savings. They elicited that the improvement in 1939–40 as compared with the preceding year was substantially maintained in 1940–41 also and expressed the hope that the improvement would continue.

As regards non-surrender of savings under Advances to local bodies to cover deficits—Grant XXXVII—the Committee were informed that only a lump provision is made in the budget and that it is increased or decreased according to the demands in the course of the year. They were also informed by the Finance Secretary that as advances to cover deficits do not require publication in the Gazette and one month's time for objections they can be sanctioned up to the end of the year and that full surrender by the 25th February which is the last day for the surrender of funds is not, therefore, always possible but that lapses in the final appropriations have been rare. The Committee offered no special remarks.

Dealing with the uncovered excess under Grant XIV. Electricity—Suspense, the Committee observed that even allowing for the fact that variations as between the estimates and actuals are to some extent inevitable owing to the peculiar nature of the transactions, which the Chief Engineer (Electricity) explained, they were not satisfied that in the particular case the Electricity Department could not have supplied closer estimates. They recommended that in future more care should be taken to obtain supplementary grants or make timely surrenders and they desired that the outstandings against a cement company should be collected as soon as possible.

As regards the uncovered excess under 'Other Suspense Accounts' under Grant XXIV. Civil Works—Works, it was pointed out by the Finance Secretary that in view of the difficulty of estimating requirements under this head accurately the latest date for receipt in the Finance Department of applications for additional appropriations and surrenders under this head has been fixed as 15th March instead of 25th February in other cases. The Chief Engineer (Buildings and Roads) explained to the Committee, with full reference to dates, that the Public Works Department made every effort to secure payment by the Bellary Municipal Council in good time and that refusal to pay was intimated only at the very end of March, too late for the Chief Engineer to arrange to cover the excess. The Chief Engineer pointed out that the Municipal Council had no justification for holding up payment merely on the ground that working plans had not been received though the drainage works had been completed and handed over. The Committee recommended that the Local Administration Department should be asked to investigate the action of the Municipal Council and the Commissioner in the matter.

In dealing with expenditure incurred on a 'New Service' under the same grant the Committee recommended that the expenditure of Rs. 24 irregularly incurred might be regularized by His Excellency.

When the Committee took up the question of defective budgeting under Grant XXX. Miscellaneous—Loans to scheduled classes for the purchase of house-sites, the Accountant-General justified the distinction drawn between a debit to 47. Miscellaneous Departments and 57. Miscellaneous. The Finance Secretary pointed out that it had not been found possible to discover whether amounts waived out of outstanding balances of loans in respect of house sites resumed were being debited to the head 47. Miscellaneous Departments uniformly in all districts. The Committee recommended that instructions to that effect should be issued.

Considering the reappropriations obtained unnecessarily and surrenders causing excess over allotments under Grant XXXIII, the Committee considered that in view of the late date of the arrival of the 5,000 K.V.A. transformer for Coimbatore the Electricity department should have realized that the 3,000 K.V.A. transformer could not be released for use elsewhere before the end of the year and the saving of Rs: 36,000 should have been foreseen. They also pointed out that the explanations in such cases would be more illuminating if dates were given.

The Committee were of the opinion that gifts of transformers might be desirable in certain cases for commercial reasons to induce industrialists to make an early change over to electric drive.

Dealing with the loss of revenue under Grant VII Irrigation owing to the non-collection of wharfage fees the Committee were informed by the Finance Secretary that the amounts written off in previous years had not been heavy and had been due to the impossibility of recovery for various causes. The Committee accepted the explanation.

In the course of the discussion on the loss in the sale of 'Willingdon House,' Ootacamund, the Chairman invited attention to the very low average net revenue and the Finance Secretary pointed out that the sale proceeds if invested even at 3 per cent would bring in a return greater than that derived on the investment on the building. The Committee observed that from 1933–34 to October 1939 when Willingdon House was sold, the average annual net revenue (rent *minus* maintenance and repairs) had been only about Rs. 950 and would have been considerably less if annual repairs had not been virtually suspended for two years while the question of disposal was under active consideration. This, the Committee felt, was an entirely inadequate return on a capital outlay of over a lakh of rupees. The Committee considered that the sale of the building even at a substantial loss was not unsatisfactory, considering all the circumstances.

In considering the unnecessary supplementary appropriation under Grant II. Provincial Excise—Compensations—Indian States and other Governments, the Committee were informed by the Finance Secretary that the present practice of crediting the duty initially to Provincial revenues and debiting the payments to other Provinces and States as Provincial expenditure had the effect of inflating both the Revenue and Expenditure. The Committee noted the revised arrangements for the adjustment of duty to other Provinces and States and hoped that they would lead to more accurate residual modifications. They also noted that if the proposal to credit the duty direct to other Provinces and States was found to be possible it would remove the difficulties which were experienced every year in arriving at an accurate final appropriation under the sub-head.

The Committee offered no special remarks with regard to the non-surrender of savings under 'Provision for flood repairs' under Minor Irrigation—Grant VII. The Accountant-General expressed the view that the mistake must have been due to misclassification of estimates as a misclassification in accounts would have come to notice at the time of reconciliation.

Dealing with the non-surrender of savings under 'Loans granted under the Agriculturists' Loans (Madras Amendment) Act, 1935'—Grant XXXVII, the Committee hoped that the recent revision of the rules coupled with experience of working the scheme and budgeting on a more reasonable basis would prevent the abnormal variations as between the estimates and actuals which had been a regular feature in previous years. The Revenue Secretary explained that the whole position was to be reviewed in July.

In regard to the unremedied excess under 'Other Taxes and Duties'—Grant X, the Committee considered that the excess was a not unnatural incident of the first year's working of a new Act and accepted the explanation.

3. A full discussion took place with the Chief Engineer for Irrigation regarding the loss in the working of the Public Works Workshops, Madras—Grant XXIV. The Public Works Secretary explained the proposals of the previous Chief Engineer and the Chief Engineer for Irrigation explained in detail certain proposals which he was about to submit with a view to improving matters. He also explained that, although in view of the fine rates at which the shops were manufacturing munitions profits might not be high, there would be a considerable improvement because of the increased outturn. The Committee noted that they would be informed of the results of the proposals made and various steps taken in due course.

4. The Committee concluded their sittings and their consideration of the Audit Report and Appropriation Accounts with a vote of thanks to the Accountant-General for his assistance in their deliberations.

LIST SHOWING MINOR ITEMS IN THE ACCOUNTANT-GENERAL'S APPROPRIATION ACCOUNTS WHICH WERE BROUGHT TO THE NOTICE OF THE COMMITTEE.

Reference to Appropriation Accounts, 1939-40.	Subject matter.	Remarks.
GRANT II—EXCISE.		
(1) Page 13, paragraph 31 (2) and pages 25—29.	Unnecessary supplementary appropriation under Grant II—Provincial Excise—Extraordinary — Indian States and other Governments—Charged.	The original appropriation under this head was Rs. 6,500 subsequently an additional allotment of Rs. 13,200 was obtained partly by supplementary appropriation and partly by reappropriation. Actual expenditure however amounted to Rs. 70,807 only resulting in a saving of Rs. 28,893. The Accountant-General has remarked that the supplementary appropriation of Rs. 10,500 proved unnecessary. The savings were mainly due to the decrease in the duty paid to two Indian States. It was explained to us that the savings could not be surrendered as certain information was not received from the State in time in one case and as the decrease was not anticipated having regard to previous actuals in the other case. We were informed that the procedure adopted for adjustment of duty in other Provinces and States has been modified with effect from this year but the effect of the change will be seen only from 1941-42 Accounts. We were also informed that the Government are examining a proposal to pay the duty direct to the credit of that Province or State instead of crediting it first to the revenues of this Province and subsequently adjusting it to the credit of the Exporting Province or State as the present practice has the effect of inflating both the Receipts and Expenditure. We note the revised arrangements for the adjustment of duty to other Provinces and States and hope that they will lead to more accurate periodical Budget Actuals. We also note that if the terms of to obtain the duty direct to other Provinces and States is found not to be possible it will remove the difficulties which are experienced every year in arriving at an accurate Head Appropriation under this sub-head.

List showing minor items in the Accountant-General's Appropriation Accounts which were brought to the notice of the Committee—*cont.*

Reference to Appropriation Accounts, 1939-40.	Subject-matter.	Remarks.
	GRANT IV—FOREST.	
(5) Page 12, paragraph 11 (3) and page 34	Non-surrender of savings under Grant IV Forest—Conservancy and working Expenses—II. Partially Excluded Areas—A Forest Produce removed by Government Agency.	There was a total saving of Rs. 17,500. This was mainly due to expenditure on the departmental purchase of tamarind being much less than anticipated. It was explained to us that the scheme of departmental purchase and resale of tamarind at Kolapa Chockalingapuram was sanctioned as an experimental measure in February 1940 and that the amount provided would have been spent if the collection of tamarind had begun in February 1940 as was expected and the full area who collected produce had supported the scheme. The season for tamarind, however, started well to be late besides being bad and the hill men did not co-operate as was expected with the result, that the savings could not be foreseen in the final proposals submitted in February 1940. We were also informed that there had been no failure to surrender savings under the Forest Grant in recent years. We accept the explanation.
	GRANT VII—IRRIGATION.	
(3) Page 12, paragraph 11 (c) and page 54.	Non-surrender of savings under Grant VII Irrigation—18. Other Revenue expenditure, etc.—Maintenance and repairs—Provision for flood repairs.	The Accountant-General has remarked that savings to the extent of Rs. 0·27 lakh were not surrendered. It was explained to us that the main reason for the savings was due to wrong classification of a sum of Rs. 0·23 lakh in East Godavari District and that instructions have been issued that the expenditure thereon should be debited to the proper sub-head of appropriation in the Subordinate both in the Treasury and the departmental accounts. We accept the explanation.
(4) Page 47, paragraph 2.	Loss of revenue under Grant VII Irrigation—Boats at Public Works Department—Non-collection of wharfage fees.	The Accountant-General has brought to notice loss of revenue owing to the non-collection of wharfage fees on private boats at Public Works Department contractors and stated that the question of rationalisation of the wharf and lock traffic registers and the extent of check to be exercised on wharfage collections are under the consideration of the Government. It was explained that the imperfect nature of the entries in the old printed registers and lapse of time made it impossible to fix responsibility for the non-collection of fees. We were informed that the Government, in consultation with the Chief Engineer (Irrigation) and the Accountant-General, Madras, had subsequently issued orders (in August 1940) revising the forms of wharf and lock traffic registers and requiring the Divisional Accountant to test-check the entries in the lock and wharf registers during his subdivisional inspections, out passing them with the entries in the muniments of wharf tickets and to bring to notice of omission to levy fees. We consider that the steps taken should make it possible to fix responsibility in future for failure to collect fees in all or accordance with the rules and accept the explanation.
	GRANT X—DISTRICT ADMINISTRATION AND MISCELLANEOUS	
(5) Page 13, paragraph 21 (5) and page 67.	Unearmed excess under Grant X—District Administration and Miscellaneous—Other Taxes and Duties—Other charges.	The Accountant-General has observed that there was an excess of 0·30 lakh under the above head. We were informed that the excess was due to the fact that the cost of printing and supplying entertainment tax stamps varies according to the demand for such stamps and that an accurate estimate could not be made in the first year of the administration of the Act which promulgated the tax and allowed proprietors of entertainments other alternative methods of paying the tax besides payment by means of stamps. We consider that the excess is a not unnatural incident of the first year's working of a new Act and accept the explanation.
	GRANT XIII—POLICE	
(6) Page 10, paragraph 11 and page 52.	Unnecessary supplementary grant under Grant XIII—Police—Pay of Officers—Voted or authorised.	The Administration-General has brought to notice that the supplementary grant of Rs. 15,000 proved unnecessary. The supplementary grant proved unnecessary as savings accrued under the head as a result of promoted and newly recruited officers coming under the revised scale of pay. It was explained that the supplementary grant was obtained on the basis of four months' actuals and anticipated expenditure and that the savings were not noticed in the final modification. We were also informed that there had been no unnecessary supplementary grants or reappropriations under this grant in recent years. We have no remarks to offer.

GRANT XIII—POLICE—*contd.*		
(7) Page 31, paragraph 11 (3) and page 90.	Reappropriation obtained unnecessarily under Grant XVII Police—g. Railway Police—6. Other charges.	The Accountant-General has remarked that the reappropriation sanctioned under this head proved unnecessary. The savings were due to the non-adjustment of claims for rents to the extent of Rs. 13,000 from the South Indian Railway pending final orders. It was explained that the South Indian Railway refused to pay the rate of rent on permanent buildings constructed out of railway funds and occupied by the Railway Police department with effect from 1st April 1938, that the railway instead of preferring claims at the new rates after necessary adjustments applied to the Government to accept their claims for Rs. 15,664 previously pending readjustment of the claims at the revised rates. The Government declined to accept the claim late in March 1940. Payment was not, therefore, made before the end of the year and this resulted in the savings. We accept the explanation.
GRANT XVII—PUBLIC HEALTH.		
(8) Page 12, paragraph 11 (b) and pages 123–125.	Non-surrender of savings under Grant XVII, Public Health—3. Direct for Public Health purposes A. Ordinary charges—Grants and contributions—1 Grants for water-supply and drainage purposes.	The Accountant-General has remarked that a sum of Rs. 69,838 was not surrendered. The savings were mainly due to the non-drawal by the Madras Corporation of a portion of the allotment provided for it. We were informed that as the Corporation did not participate in the Government by the 15th February 1940 the amount that it would actually require up to the end of the year it was not possible to take the savings into account and that orders have since been issued in September 1940 pointing out to the Corporation of Madras and other local bodies the necessity for closer budgetting and surrendering savings in time. We were also informed that there was an improvement in 1939–40 as compared with previous years and a further improvement in 1940–41. We hope that the improvement will be maintained.
(9) Page 12, paragraph 11 (c) and pages 123–125.	Non-surrender of savings under Grant XVII, Public Health—3. Expenditure from the Fund for the Development of Rural Water-supply.	The Accountant-General has brought to notice that savings to the extent of Rs 1,18,910 were not reappropriated to cover the excess under the sub-head 'Direct—Transfer from the Fund for the Development of Rural Water-supply.' The savings were due to the inability of Collectors to spend in full the amounts allotted to them and their failure to send timely intimation of the savings to the Government. It was explained to us that the capacity to execute works without special staff and equipment was ascertained and that the progress could not be closely watched as there was no head of a department in charge of the work. We were also informed that there was some improvement in 1940–41 and that instructions had been issued for closer control of demands and expenditure. We hope that as the Board of Revenue is now responsible there will be closer and better control.
GRANT XXIV—CIVIL WORKS—WORKS.		
(10) Page 8, paragraph 9 (b).	Regularisation of a case of expenditure on 'New Service' under Grant XXIV, Civil Works—Works.	The Accountant-General has brought to notice that the following case of expenditure on a 'New Service' requires regularisation:— The Chief Engineer, Chennai, executing the road over the Lower Coleroon Anicut and approaches estimated to cost Rs. 46,000 was started during the year under report and an expenditure of Rs. 24 was incurred on the work in March 1940. As the expenditure was on a 'New service' it should have been met by a supplementary appropriation authorised by His Excellency the Governor. A reappropriation of Rs 300 was sanctioned by Government in March 1940 to meet the expenditure. The amount to obtain a supplementary appropriation was due to oversight. It was explained that the fact that the work was not one of the works included in the Work's Programme approved by the Legislature and placed thereafter have been treated as a 'New Service' requiring supplementary authorisation by His Excellency the Governor was overlooked and that the Accountant-General raised the question of supplementary authorisation in August 1940 when it was too late to regularise the expenditure. We recommend that the expenditure of Rs. 24 irregularly incurred may be regularised by His Excellency the Governor.
(11) Pages 155–158 and 200–203 Vol. II (A).	Loss in sale—"Willingdon House," Coimbatore.	The Accountant-General has observed that a loss of Rs. [illegible] was sustained by Government on the sale of the building known as "Willingdon House" at Coimbatore, which was purchased by the Government in 1926 at a cost of Rs. [illegible] and later increased by [illegible] to Rs. 1,00,000. The reasons which led to the loss were fully explained to us and we were informed that from 1927–28 to 1936–37 the "Willingdon House" was sold the average annual net revenue (gross annual rental less maintenance paid to patel) had been only about Rs. 800 and would have been no other than if no such transaction had been viewed in its entirety as a loss while the effects of Depreciation [illegible] per cent remained as. We feel that it is very difficult to [illegible] the whole on a capital basis of over a lakh of rupees, and [illegible] that the sale of the building even at a sub-tantial loss is not unsatisfactory considering all the circumstances.

	GRANT XXIV—CIVIL WORKS—WORKS—*cont.*	
(12) Page 158, paragraph 6.	Loss in the working of the Public Works Workshops, Madras.	The Accountant-General has observed that the workshops at Madras sustained a loss of Rs. 0·61 lakh in the year under review as against Rs. 0·45 lakh in the preceding year the deterioration being due to smaller outturn without a corresponding reduction of overhead charges. He has also pointed out that the possibility of revising the rates of indirect charges for jobs done for other departments and local bodies is under consideration of the Government. The Chief Engineer for Irrigation explained in detail certain proposals which he is framing to Government with a view to improving matters. He also explained that, although in view of the fire rates at which the shops were manufacturing ammunition profits might not be high, there should be considerable improvement because of the increased contracts. We note that we will be informed of the results of the proposals made and various steps taken in due course.
	GRANT XXVI—CIVIL WORKS—GRANTS-IN-AID.	
(13) Page 12, paragraph 17 (2) and page 173.	Non-surrender of savings under Grant XXVI Civil Works—Grants-in-aid—D. Grants to local bodies for roads and bridges (other than village communications).	There was a total saving of Rs. 0·76 lakh. We were informed that the savings could not be surrendered as the reports of the amount of savings in the grants allotted to the local bodies were not received in time and as the savings reported for surrender were not properly estimated by local bodies and final instructions have been issued (i) to local bodies to see that grant works are carried out with expedition and that such portions of the grants as are likely to lapse are surrendered to Government forthwith and in any case before the 15th February of each year and (ii) to District Board Engineers to report lapses promptly and accurately. We were also informed that there was plenty of communication between the actuals and the final appropriation in 1939–40 than in preceding years and that this improvement was maintained in 1940–41 also. We consider that further improvement is possible as the variation exceeds 10 per cent of the final appropriation.
(14) Page 11, paragraph 13 (2) and page 173.	Re-appropriation obtained unnecessarily as in excess of requirements under Grant XXVI—Civil Works—Grants-in-Aid—D. Grants to local bodies for village communications.	The Accountant-General has reminded that the relinquishments mentioned under this head proved excessive. A sum of Rs. 12,000 was not surrendered in time. It was explained to us that the savings could not be surrendered as the local bodies concerned failed to report the savings in time. We were also informed that the improvement in 1939–40 as compared with the preceding year was substantially maintained in 1940–41 also. We hope that the improvement will continue.
	GRANT XXX—MISCELLANEOUS.	
(15) Page 13, paragraph 21 (1) and page 159, paragraph 2.	Defective budgeting under Grant XXX—Miscellaneous—Loans to Scheduled classes for the purchase of house-sites.	The Accountant-General has brought to notice that a provision of Rs. 15,000 proposed by the Commissioner of Labour in the budget estimate for 1939–40 under '47 Miscellaneous Departments' was under a misapprehension taken by Government in the estimate under '47 Miscellaneous' and later resumed at the instance of the Commissioner of Labour after the budget had been issued and that, in cases where irrecoverable balances of loans granted to scheduled classes for the purchase of house-sites are not waived and the Government resume possession of the land, the unpaid balance of the loan is debitable under items of Government as expenditure under '47. Miscellaneous departments' instead of under '97. Miscellaneous—Irrecoverable Temporary Loans written off'. We were informed that it had not been found possible to discover whether amounts waived out of outstanding balances of loans in respect of house-sites resumed were being debited to the head '47. Miscellaneous departments' uniformly in all districts. We recommend that instructions to that effect should be issued.
	GRANT XXXIII—CAPITAL OUTLAY ON ELECTRICITY SCHEMES.	
(16) Page 11, paragraph 14 (1) and pages 160–161.	Injudicious reappropriations and surrenders causing excess over allotments under Grant XXXIII—Capital outlay on Electricity Schemes.	The Accountant-General has brought to notice an excess of Rs. 13,283 under the Pykara Electric Scheme and an excess of Rs. 36,527 under the Mettur Hydro-Electric Scheme caused by injudicious reappropriation and surrender. It was explained to us that the excess under Pykara was mainly due to large surrenders under the original grant due to credit on account of released equipment which could not be effected in the previous year, abandoning a work on account of non-receipt of materials due to war and high cost of a transformer obtained on tender at a competitive price. The excess-is beyond executive. The excess under Mettur Main Scheme was mainly due to cost of English stores and partly due to unanticipated payments for subsidies transferred from the Pykara System. We accept the explanation.

GRANT XXXIII—CAPITAL OUTLAY ON ELECTRICITY SCHEMES—*cont.*

(37) Page 210, paragraph 3.	Grant XXXIII—Capital outlay on electricity schemes—Free supply of transformers.	The Accountant-General has remarked that the Government sanctioned at first, free of cost for a period of 5 years the loan of transformer installations valued at Rs. 48,000 by the Electricity Department to certain mills in a district as an inducement to change over to electric drive, the intention being that at the end of the five years the transformers should be hired from Government or purchased outright by the mill-owners at a fair valuation. Subsequently Government sanctioned the issue of the department to supply these transformers free of cost outright and extended the concession of free supply to the mills in another district. The total value of the transformer installations so far supplied as free gifts is Rs. 77,200 of which about Rs. 24,000 was authorised in the year 1939-40. We were informed that the supply of free transformer installations to the mills as an inducement to change over from the steam or oil engine to electric drive was made with a view to better the financial prospects of the Government Electricity schemes by creating a substantial power market and the total liability involved was expected to be more than compensated by increased revenue the Government would get by the change over of the mills to electric drives.
		We are of the opinion that gifts of transformers might be desirable in certain cases for commercial reasons to induce industrialists to make an early change over to electric drive.

GRANT XXXVI—INTEREST-FREE ADVANCES.

(38) Page 10, paragraph 11 and page 228.	Unnecessary supplementary grant under Grant XXXVI—Interest-free Advances—Advances to students.	The Accountant-General has remarked that the supplementary grant of Rs. 13,000 under the sub-head was too large and unnecessary. The Home Secretary explained that the provision was an extraordinary one made at the special instance of the High Commissioner to provide for Indian students who might be left stranded in England without funds as a result of the outbreak of war and that it was impossible to anticipate how much the High Commissioner might disburse before the end of the year.
		We accept the explanation as the item was an extraordinary one in an extraordinary year.

GRANT XXXVII—LOANS AND ADVANCES BEARING INTEREST.

(39) Page 12, paragraph 11 (6) and page 228.	Unsecured excess under Grant XXXVII—Loans and Advances bearing Interest—Loans for water-supply and drainage schemes and other public health purposes.	The Accountant-General has remarked that an excess of Rs. 1,18,267 was incurred. It was explained that consequent on the restriction of loans on the outbreak of war and the subsequent relaxation of this restriction later, the final requirements were underestimated by oversight and a larger amount than should have been surrendered was surrendered to the Finance Department for resumption in February 1940 and that steps have been taken to avoid the recurrence of such an oversight in future.
		We hope that the oversight of 1939-40 will not be repeated.
(40) Page 12, paragraph 11 (6) and page 228.	Non-surrender of savings under Grant XXXVII—Loans and Advances bearing Interest—Loans under Agriculturists' Loans (Madras Amendment) Act, 1935.	The saving of Rs. 84 lakh under this head and the non-surrender are attributed to loans not having been granted in a large number of cases on account of—
		(1) the applicants being found ineligible for loans as a result of enquiries which were completed only after the expiry of the due date for surrender,
		(2) enquiries not being completed by the end of the financial year as anticipated,
		(3) withdrawal of applications at the end of the year after proposals for surrender had been submitted and
		(4) delay in passing orders on applications pending before the Debt Conciliation Boards.
		We were informed that orders were issued in February 1941 amending the rules so as to make the scheme more popular while guaranteeing adequate safeguards against loss to Government and that the Government have also directed that propaganda should be carried on by the distribution of leaflets and issuing others in order to give wide publicity to the scheme.
		We hope that the recent revision of the rules coupled with experience of working the scheme and budgeting on a more reasonable basis will prevent the abnormal variations between estimates and actuals which have been a regular feature in previous years.

Reference to Appropriation Accounts, 1938-39.	Subject matter.	Remarks.
	GRANT XXXVII—LOANS AND ADVANCES BEARING INTEREST—*contd.*	
(21) Page 18, paragraph 14 (b) and page 227.	Non-surrender of savings under Grant XXXVII—Loans and Advances bearing interest—Advances to local bodies to cover deficits.	The Accountant-General has remarked that savings to the extent of Rs. 53,300 were not surrendered in time. It was explained to us that the savings were due to the fact that the advance of Rs. 55,000 proposed to be given to the Cuddalore District Board to enable it to refund to the Government the excess grants drawn by it could not be sanctioned within the year as the resolution of the District Board on the proposal was not received in time and that the amount could not be substituted as it was expected that the resolution would be received and the advance sanction sanctioned within the year. We were informed that only a lump provision is made in the budget and that it is increased or decreased according to demands in the course of the year. We were also informed by the Finance Secretary that as advances to cover deficits do not require publication in the Gazette and non-receipt of time for objections they can be sanctioned up to the end of the year and pass out accounts by the 25th February, which is the last day for the surrender of funds in and, therefore, always possible that lapses in the main appropriations have been cured. We have no special remarks to offer.
	GOVERNMENT COMMERCIAL CONCERNS.	
(22) Pages 229-235.	Government Commercial Concerns—Financial review.	Copies of the following administration and audit reports relating to commercial concerns were furnished to us:— (1) Administration of the Jail Department for 1939. (2) Audit report for 1939 of the manufactory section of the Central Jail, Vellore. (3) Audit report for 1939 of the manufactory section of the Central Jail, Coimbatore. (4) Administration reports for 1938-39 of the following departments— (i) Agricultural department. (ii) Cinchona department. (iii) Fisheries department. (iv) Industries department. (5) Audit reports for 1938-39 of the following commercial concerns — (i) Kurnla Sugar mills. (ii) Industrial Engineering Workshops, Madras. (iii) Cinchona department. The administration reports of the Cinchona and Fisheries incorporate the audited figures, but the audited figures of the two commercial concerns under the Industries department could not be incorporated in the Administration report of that department as they were not available at the time the report was prepared. The administration report of the Agricultural department does not include the audited figures of the Agricultural College Dairy. We endorse the decision of the Government in paragraph 3 of G.O. No. 4126, Home, dated 4th November 1940, that selling prices of quinine preparations should not be increased by more than cost of raw material(s) with the materials purchased at increased rates are actually used for manufacture. We also consider that profits earned by the Cinchona department require consideration. As regards other commercial concerns we have no special remarks to offer.

APPENDIX C.

[See paragraph 4 of the Report.]

MEMORANDUM SHOWING THE ACTION TAKEN BY GOVERNMENT ON THE REPORT OF THE *AD HOC* PUBLIC ACCOUNTS COMMITTEE ON THE ACCOUNTS OF 1938-39.

A Committee on Public Accounts consisting of members elected by the Madras Legislative Assembly could not be constituted in view of the suspension of the constitution under Section 93 of the Government of India Act, 1935. His Excellency the Governor, however, constituted an *ad hoc* Committee consisting of his three Advisers, with the Adviser in charge of Finance as its Chairman and the Secretary to Government in the Finance Department as its Secretary, to examine the Appropriation Accounts of the Government of Madras for the year 1938-39 and the Audit Report, 1939, in the manner prescribed by rule 135 of the Madras Legislative Assembly Rules (which lays down the

functions of the Public Accounts Committee), to consider any other matters which might be referred to it by the Finance Department and to submit a report containing the results of its examination and its recommendations. The Committee met on the 21st May 1940 and the following day to consider the report of the Auditor-General relating to the Appropriation Accounts of the Province for the year 1938–39 and other matters. His Excellency the Governor considered the report of the Committee, approved the recommendations made therein and sanctioned the excesses over charged and voted appropriations.

2. The Government have given their consideration to the recommendations made and the opinions expressed by the Public Accounts Committee.

The more important questions referred to the Committee are dealt with in the following paragraphs. As regards the remaining recommendations, which deal with matters of detail, a statement of the action taken by the Government is contained in the Annexure to this memorandum.

3. *Paragraph* 11—*Non-surrender of savings under Grant X—District Administration and Miscellaneous—General Administration—Miscellaneous—Grants for Rural Development.*—The Committee recommended that in view of the large balance of the Government of India grant for rural reconstruction remaining unspent, steps should be taken to ensure that there is no unspent balance at the end of 1941–1942. The need for accelerating the progress of the schemes financed from the Government of India grant was impressed upon Collectors in G.O. No. 1185 (S.-6), Development, dated 20th May 1940.

4. *Paragraph* 14—*Non-surrender of savings under Grant XVII. Public Health—Grants for water-supply and drainage purposes.*—The Committee, while appreciating the difficulties explained by the Chief Engineer, considered that a more accurate appreciation of the amount that could be spent in the year should have been possible at least in time to surrender probable savings. They also recommended that the necessity for closer budgeting should be impressed on the Public Works Department, the Corporation of Madras and the municipalities concerned.

The Government accepted the views of the Public Accounts Committee and requested the Chief Engineer to take steps to avoid overbudgeting and to issue instructions in the matter to the officers in the Public Works Department in charge of the execution of schemes and to impress on them the necessity for the avoidance of large lapses under grants for water-supply and drainage schemes. They have also directed the Commissioner, Corporation of Madras, and the executive authorities of other local bodies to see that there is closer budgeting in future and that lapses are avoided.

5. *Paragraph* 18—*Non-surrender of savings under Grant XXVI. Civil Works—Grants-in-aid—Central Road Fund Account—Communications.*—The Committee recommended that steps should be taken to expedite the progress of expenditure in case this Government's supposed inability to utilize their share should lead to resumption by the Government of India of the unspent balances of the Madras Government's share in the Central Road Fund. Instructions for the rapid utilization of the unspent balance of the Provincial allocation from the Central Road Fund were issued to local bodies in Memorandum No. 15889-1 (R.D.) L.A., dated 14th May 1940.

6. *Item* (10) *of Appendix B to the Report—Non-surrender of savings under Grant XXIII. Miscellaneous Departments—47. Miscellaneous Departments—Scheduled classes—Public Health—Construction and repair of wells, etc.*—The Committee expressed the hope that, as a result of the examination which the administrative department was undertaking, there would be closer approximation between the net budget provision and the actuals in future. The question of devising measures to avoid lapses in future was subsequently considered by Government in consultation with the Commissioner of Labour. The Commissioner has

instructed the Collectors concerned to forward to him every month a report on the progress of expenditure on well works, etc. The Commissioner proposes to check these reports, review them from time to time and watch the progress of expenditure. He has also proposed to ask Collectors to arrange for the speedy execution of works in accordance with the instructions in G.O. No. 93, Finance, dated 3rd April 1940, which authorize heads of departments to incur expenditure on minor works and on maintenance and repairs up to 75 per cent of the provision made in Part I of the budget even before intimation that the Legislature has voted the funds has been communicated to them. The Government have approved these proposals and trust that as a result of these measures a closer approximation between the net budget provision and the actuals will be achieved in future.

W. SCOTT BROWN,
Secretary to Government.

RECOMMENDATION OF THE COMMITTEE.

We note the action taken and have no remarks to offer.

NOTE BY THE FINANCE DEPARTMENT.

SCHEMES OF NEW EXPENDITURE TREATED AS "NEW SERVICES" IN 1940-41.

With reference to paragraphs 3 and 4 of the Introductory Note to the pamphlet, *Rulings of the Madras Public Accounts Committee on the Interpretation of the term "New Service"*, a list of schemes of new expenditure treated as "New Services" during the year 1940-41 is placed before the Public Accounts Committee.

2. Last year, the Accountant-General raised the question whether the transfer *free of cost* of electric transformer installations lent to industrialists in the first instance as an inducement to them to change over from steam or oil-engine to electric drive with a view to bettering the financial prospects of Government Electricity undertakings should be treated as a New Service. The financial effect of such free transfer of transformers is that the expenditure incurred in the purchase of these transformers by the Electricity department, debited to the head "81. A. Capital outlay on Electricity Schemes", would continue to represent an asset of Government, even though the asset has ceased to exist as such.

4

It is not the practice to treat free gifts of land or buildings or of forest produce such as bamboos, etc. (mostly to people whose houses are destroyed by fire or flood and the like), waiver of interest on loans to agriculturists consequent on the postponement of loan instalments as a result of adverse seasonal conditions and other abandonments of revenue as New Services, as actual expenditure is not involved. If, however, the principal of a loan has to be written off and the amount involved is large, it is treated as a New Service and a supplementary authorization obtained in pursuance of the recommendation of the Public Accounts Committee in item XII on page 15 of the New Service pamphlet.

It is suggested that, following this analogy, free gifts of transformers to industrialists, if they have to be made, may be treated as New Services provided the cost of the transformers is large.

If this is accepted, the question arises whether any monetary limit should be fixed as the criterion for a New Service in such cases as, otherwise, even petty gifts would have to be treated as New Services. Following the analogy of major works, it is suggested that, when the *original* cost of the transformer to be given away free of cost exceeds Rs 10 000, it should be treated as a New Service, the necessary appropriation being sanctioned under 'XLI. Receipts from Electricity Schemes—Working expenses' and a *per contra* credit being given at the same time to the Capital head '81. A. Capital outlay on Electricity Schemes' with a view to relieving that head of a debit against which there is no corresponding asset.

3. The advice of the Committee is requested—

(a) whether the item mentioned in paragraph 2 above should be treated as a "New Service" and

(b) whether the items in the annexed list were correctly treated as "New Services."

We agree with the decisions of the Government in all the cases mentioned in the list. We also accept the formula suggested for the classification of free grants of electrical transformer installations as New Services.

II

NOTE BY THE FINANCE DEPARTMENT.

[SUBJECT.—*'New service'—Employment of Gazetted Officers for short periods—Modification of ruling.*]

Prior to 1939 the employment of additional staff, gazetted or non-gazetted, required either as a temporary measure or to deal with normal increase of work according to existing standards of administration did not require to be treated as a 'New service.' In 1939 the Government decided that this procedure should be changed and that a proposal for the employment of any officer of gazetted rank or of non gazetted staff costing more than Rs. 2,500 per annum should be brought forward as a Part II Scheme or treated as a 'New service' as the case might be. The Public Accounts Committee accepted the principle.

According to ruling (3) in section (B) of the Rulings of the Madras Public Accounts Committee, schemes of new expenditure which involve the employment of any officer of gazetted rank have, therefore, now to be treated as 'New services' The incurring of expenditure on a 'New service' requires in ordinary times the specific vote of the Legislative Assembly. In the situation created by section 93 of the Government of India Act, 1935, the special authorization of His Excellency the Governor has to be obtained for the expenditure and a statement of the circumstances necessitating the expenditure has to be published in the *Fort St. George Gazette* for the information of the public. Officers of gazetted rank have sometimes to be employed temporarily for short periods for doing urgent work In the absence of a monetary limit for the expenditure, as in the case of the non-gazetted staff, the appointment of gazetted staff for very short periods of even one or two months has to be treated as a 'New service' necessitating the adoption of an elaborate procedure for obtaining sanction. The Government consider that this is unnecessary. It is therefore proposed to direct that schemes of new expenditure which involve the employment of Gazetted Officers but the cost of which does not exceed Rs. 2,500 per annum need not be treated as 'New services.'

If the proposal is accepted the relevant portions of the existing ruling of the Public Accounts Committee and of the revised ruling will compare as follows :—

"Employment of any officer of gazetted rank or non-gazetted staff estimated to cost more than Rs. 2,500 per annum,"

to be substituted by

"Employment of additional staff, where the estimated cost of any officer of gazetted rank and/or non-gazetted staff exceeds Rs 2,500 per annum."

2 The concurrence of the Committee is requested to the modification of the ruling as proposed above.

RECOMMENDATION OF THE COMMITTEE.

We accept the amendment proposed to the ruling. We consider that the limit should be raised from Rs. 2,500 to Rs. 5,000 as the former is too low to be of any real use.

Secretary to Government.

Madras Act III of 1926.

WHEREAS it is expedient further to amend the Madras Nurses and Midwives Act, 1926, for the purposes hereinafter appearing;

LEGAL DEPARTMENT.

NOTIFICATION.

The following Statement of His Excellency the Governor of the reasons which have moved him to enact the Madras Nurses and Midwives (Amendment) Act, 1941, in exercise of the powers of the Provincial Legislature assumed by him under the Proclamation issued under section 93 of the Government of India Act, 1935, is published for general information :—

STATEMENT.

The Madras Nurses and Midwives (Amendment) Act, 1941, makes certain amendments to section 3 of the main Act and the reasons for making the amendments are explained below.

Clause (g) of section 2 (1) of the Madras Nurses and Midwives Act, 1926, provides that two matrons of hospitals elected by the registered nurses and midwives and approved by the Surgeon-General shall be members of the Madras Nurses and Midwives Council. In practice, the Matron Superintendents of the Government General Hospital, Madras, and the Government Hospital for Women and Children, Madras, have been elected to the Council under the above provision and the services of these expert and experienced officers have been found most valuable to the Council in dealing with questions relating to the training and examination of nurses and midwives. It is therefore considered desirable to make these two matrons *ex officio* members of the Council. Section 2 (i) of the amending Act gives effect to this object.

Under clause (j) of section 3 (1) of the principal Act, one registered nurse should be elected by such of the members of the Nurses' Association of Madras as are registered under the Act. This seat has been vacant for some time as the Nurses' Association failed, in spite of repeated requests, to furnish a list of its members who are registered under the Act. There is also reason to believe that the association is not functioning properly. Section 2 (iii), therefore, omits clause (j) referred to above. The omission of this clause does not however affect the representation of the registered nurses on the Council for section 2 (ii) of the amending Act provides that two registered nurses, instead of one as at present, should be elected to the Council by the registered nurses.

A Bill for making these amendments was published inviting objections and suggestions but no objection or suggestion was received.

ARTHUR HOPE,
Governor of Madras.

(By order of His Excellency the Governor)

P. APPU NAIR,
Secretary to Government.

3. (1) The Collector may, by notification—

(*a*) declare any revenue village, or in special circumstances, a portion of a revenue village, or two or more neighbouring revenue villages or portions thereof, or the whole of one or more such villages and portions of the other or others, to be a village for the purposes of this Act, and specify the name of such village, or

(*b*) exclude from a village any revenue village comprised therein or where only a portion of a revenue village is comprised in the village, such portion, or in special circumstances, a part of such revenue village or portion, or

(c) include in a village any portion of a revenue village of which some other portion is already comprised therein, or in special circumstances, any neighbouring revenue village or portion thereof, or

(d) cancel a notification issued under clause (a) or alter the name of the village as notified under that clause :

Provided that before issuing a notification under clause (b), clause (c) or clause (d), the Collector shall give the panchayat or panchayats which will be affected by the issue of such notification a reasonable opportunity for showing cause against the proposal and shall consider the explanations and objections, if any, of such panchayat or panchayats.

(2) The Collector may pass such orders as he may deem fit—

(a) as to the disposal of the property vested in a panchayat which has ceased to exist, and

(b) as to the disposal of any part of the property vested in a panchayat which has ceased to exercise jurisdiction over any local area.

Constitution of panchayats for villages and their incorporation.

4. (1) A panchayat shall be constituted for each village.

(2) Subject to the provisions of this Act, the administration of the village shall vest in the panchayat but the panchayat shall not be entitled to exercise functions expressly assigned by or under this Act or any other law to its president or executive officer, or to the district board or any other authority.

(3) Every panchayat shall be a body corporate by the name of the village specified in the notification issued under section 3, shall have perpetual succession and a common seal, and, subject to any restriction or qualification imposed by or under this Act or any other law, shall be vested with the capacity of suing or being sued in its corporate name, of acquiring, holding and transferring property, movable or immovable, of entering into contracts, and of doing all things necessary, proper or expedient for the purposes for which it is constituted.

Strength of a panchayat.

5. The total number of members of a panchayat shall be notified by the Collector in accordance with such scale as may be prescribed with reference to population.

Ex-officio and elected members and reservation of seats.

6. (1) The headman of every revenue village the whole or any portion of which is comprised within the jurisdiction of a panchayat shall *ex officio* be a member thereof; and the other members of the panchayat shall, save as otherwise expressly provided in this Act, be elected in such manner as may be prescribed.

(2) In every panchayat, the Collector may in his discretion reserve such number of seats, if any, as he thinks fit for—

(*a*) Muslims,

(*b*) Indian Christians, and

(*c*) Members of the Scheduled castes.

(3) In reserving seats in a panchayat for any community, the Collector shall have due regard to its number and importance in the village.

(4) Nothing contained in sub-section (2) shall be deemed to prevent members of any community for whom seats have been reserved in any panchayat, from standing for election to the non-reserved seats in the panchayat.

Division into wards and method of election.

7. (1) For the purpose of electing members to a panchayat, the Collector may, after consulting the panchayat, by notification—

(*a*) divide the village into wards, provided that every revenue village or portion thereof comprised in the village shall, if inhabited, be a ward or be divided into wards;

(*b*) determine the wards in which the seats reserved under sub-section (2) of section 6 for any community shall be set apart;

(*c*) determine the number of members (whether one or more) which the wards referred to in clause (*b*) shall, in addition to the members for such reserved seats, return for non-reserved seats in the panchayat;

(*d*) determine the number of members (whether one or more) which each of the other wards shall elect to the panchayat.

(2) All the electors of a ward, irrespective of their community, shall be entitled to vote at an election to any seat in that ward, whether reserved or not.

(3) Where a village is not divided into wards, all the electors of the village, irrespective of their community, shall be entitled to vote at any election to any seat in the panchayat, whether reserved or not.

Term of office of elected members.

8. (1) The term of office of the members of every panchayat who are elected at ordinary elections shall, save as otherwise expressly provided in, or may be prescribed under, this Act, be three years beginning at noon on the day on which the vacancies occur:

Provided that the Collector may, by notification, for sufficient cause which shall be stated therein, direct that the term of office of the members of any panchayat as a whole be extended or reduced by such period not exceeding three months as may be specified in the notification.

(2) (*a*) Every casual vacancy in the office of a member of a panchayat shall be reported by its executive officer to the election authority within such time as may be prescribed.

(*b*) A member elected in a casual vacancy shall enter upon office forthwith, but shall hold office only so long as the member in whose place he is elected would have been entitled to hold office if the vacancy had not occurred.

(*c*) Unless the Collector otherwise directs, no casual election shall be held to a panchayat within three months before the date of retirement of its members by efflux of time.

(3) Where the number of members of a panchayat is increased, the members elected for the additional seats or the members elected in their places in casual vacancies shall hold office until the date on which the members elected to the original seats at the ordinary elections immediately preceding, will vacate office.

Appointment of members in certain cases and their term of office.

9. (1) If at an ordinary or casual election, no person is elected to fill the vacancy or one or more of the vacancies, as the case may be, the Collector may appoint a qualified person or persons to fill such vacancy or vacancies.

(2) In case the Collector is satisfied that an ordinary or casual election cannot be successfully held on account of faction or disorder in the village or any other cause, he may, notwithstanding anything

contained in this Act, appoint a qualified person or persons to fill the vacancy or vacancies. In the case aforesaid, the Collector shall also have power to direct such reduction in the total number of members of the panchayat as he thinks necessary.

(3) The term of office of a member of a panchayat appointed under sub-section (1) or sub-section (2) shall, unless the Collector otherwise directs, expire at the time at which it would have expired if he had been elected at the ordinary or casual election, as the case may be.

Preparation and publication of electoral roll and qualifications for inclusion therein.

10. (1) An electoral roll for each panchayat showing the names of persons qualified to vote at elections thereto, shall be prepared and published, and shall be revised, at such times, by such authority, and in such manner as may be prescribed.

(2) Every person whose name is included in that part of the electoral roll for any territorial constituency of the Madras Legislative Assembly which relates to the village or any portion thereof shall be entitled to be included in the electoral roll for the panchayat, and no other person shall be entitled to be included therein.

Explanation (1).—Where in the electoral roll of any territorial constituency of the Madras Legislative Assembly, there is no distinct part relating to a village, the names of all persons who are entered in such roll under the registration area comprising such village and whose addresses as entered in such roll are situated in such village, shall be entitled to be included in the electoral roll for the panchayat.

Explanation (2).—In this sub-section, "territorial constituency" shall have the same meaning as in the Sixth Schedule to the Government of India Act, 1935, that is to say, it shall mean one of the territorial constituencies mentioned in paragraphs five and eight of the Fifth Schedule to that Act. 26 Geo. 5, Ch. 2.

(3) The name of no person shall be included in the electoral roll for a panchayat in more than one place.

(4) When a village has been divided into wards, the electoral roll for the panchayat shall be divided into separate parts for each ward.

(5) Every person whose name appears in the electoral roll for the panchayat shall, so long as it

remains in force and subject to any revision thereof which might have taken place and subject also to the other provisions of this Act, be entitled to vote at an election ; and no person whose name does not appear in such roll shall vote at an election :

Provided that a person who is of unsound mind, a deaf-mute or a leper, shall not be entitled to vote at any election.

Qualification of candidates.

11. No person shall be qualified for election to any seat on a panchayat unless his name appears on its electoral roll.

Disqualification of Government officers and servants.

12. No officer or servant of the Government including karnams and village servants shall, save as otherwise may be prescribed, be qualified for election as a member or for holding office as an elected member :

Provided that if any question arises either before or after an election whether any person is or is not disqualified under this sub-section, the question shall be referred to the Government whose decision shall be final.

Explanation.—Nothing contained in this section shall be deemed to prevent the appointment of any officer or servant of the Government other than a karnam or village servant, to be a member of a panchayat.

Disqualification of persons convicted of election offences.

13. Every person convicted of an offence punishable under Chapter IX-A of the Indian Penal Code or under any law or rule relating to the infringement of the secrecy of an election, shall be disqualified from voting or from being elected in any election to which this Act applies or from holding the office of member of a panchayat, for a period of five years from the date of his conviction or for such shorter period as the Court may by order determine.

XLV of 1860.

Disqualifications of candidates.

14. (1) A person who has been sentenced by a Criminal Court to transportation or to imprisonment for a period of more than six months for any offence other than an offence of a political character or an offence not involving moral delinquency (such sentence not having been reversed or the offence pardoned), shall be disqualified for election or appointment as a member while undergoing the sentence and for five years from the date of the expiration thereof :

Provided that the Government may direct that such sentence shall not operate as a disqualification.

(2) A person shall be disqualified for election or appointment as a member if such person is at the date of nomination, election or appointment—

(*a*) of unsound mind, a deaf-mute or a leper ;

(*b*) an applicant to be adjudicated an insolvent or an undischarged insolvent ;

(*e*) an officer or servant of the panchayat ;

(*f*) an honorary Magistrate with jurisdiction over any part of the village ;

(*g*) already a member of the panchayat whose term of office will not expire before his fresh election or appointment can take effect or has already been elected or appointed a member of the panchayat whose term of office has not yet commenced ;

(*h*) the servant or employer or the official subordinate or official superior of a member holding office at the said date ; or

(*i*) in arrears of any kind due by him (otherwise than in a fiduciary capacity) to the panchayat up to and inclusive of the previous year, in respect of which a bill or notice has been duly served upon him and the time, if any, specified therein for payment has expired.

Disqualifications of members.

15. (1) Subject to the provisions of section 16, a member shall cease to hold office as such if he—

STATEMENT OF OBJECTS AND REASONS.

HISTORICAL RETROSPECT.

Lord Ripon's resolution of 1882 regarding the association of non-officials in the administration of local institutions led to the passing of the Madras Local Boards Act, 1884, which provided for the constitution of "unions" in small towns and large villages mainly for the purpose of looking after village roads, sanitation and lighting. About 400 unions were established whose members were all nominated. After the visit of the Royal Commission on Decentralization, the Government of Madras decided to increase the number of these unions and to introduce therein the principle of election. They also decided to constitute informal panchayats, under the control of Collectors, with the local village headmen as *ex officio* chairmen. About 1,000 of these informal panchayats were accordingly constituted but their position was weak and unsatisfactory as they had no statutory basis.

The Royal Commission on Decentralization laid stress on the necessity for district officers looking after panchayats and considered that panchayats should have no connexion with district or taluk boards. In 1918, the Government of India in their review on the working of local self-governing institutions in India also pointed out the desirability of keeping panchayats as far as possible under the control of the district staff and away from other administrative bodies. They also emphasized the importance of associating village officers with panchayats and advocated the introduction of simple and

elastic legislation to call these panchayats into existence. The Madras Village Panchayat Act was accordingly passed and brought into force in 1920. That Act enfranchised all men over 25 years of age and provided for the election of all members of the panchayats. A post of Registrar-General of Panchayats was also created to supervise the panchayats and he was to be aided by non-official organizers. In framing the Madras Village Panchayat Act, the advice of the Government of India that panchayats should be placed under the control of the district staff and that the village officers should be associated with them, was not followed. Side by side with these panchayats, the "unions" constituted under the Local Boards Act of 1884 (and its successor the Madras Local Boards Act, 1920) also continued to function.

By 1928, the number of panchayats had increased to nearly 3,000 and the Government, realizing the difficulty experienced by the Registrar-General in supervising so many village bodies, transferred the well-established panchayats to the control of Collectors. Before the effect of this change could be gauged, the Madras Village Panchayat Act of 1920 was repealed by the Madras Local Boards (Amendment) Act of 1930 (Madras Act XI of 1930). That Act amended the Madras Local Boards Act which was then in force so as to bring within its scope the panchayats constituted under the Village Panchayat Act. The panchayats were thus placed on the same footing as the "unions" which were already governed by the Local Boards Act and they acquired also considerably enlarged powers. The supervision and control of panchayats was divided between taluk boards while they existed and subsequently between district boards and the Government through the Inspector of Municipal Councils and Local Boards. The Collector had also some powers, mainly for dealing with emergencies. As the number of panchayats grew, District Panchayat Officers and Assistant Panchayat Officers were appointed. These officers are now working under the dual control of the district board and the Inspector. Three Deputy Inspectors of Municipal Councils and Local Boards have also been appointed, with responsibility for the inspection of panchayats and district boards and municipalities within their jurisdiction. Powers of supervision over panchayats have also been delegated to the Deputy Inspectors who exercise these powers concurrently with the Inspector.

PRESENT CONDITION OF PANCHAYATS.

There are now in all about 6,800 panchayats in this Presidency, with a population of about 10 millions living within their jurisdiction. About 450 of them were "unions" before 1930. The condition of panchayats generally is very unsatisfactory. Strong faction exists in many panchayats which not

only retards progress but generally prevents the administration from doing any useful work in the interests of the village as a whole. Presidents have often to depend upon clerks who are corrupt or mischievous. In many panchayats meetings are not convened regularly, sanitation is generally neglected, drinking water-supply is not provided, roads are badly maintained, favouritism is shown in the acceptance of tenders, collection work is very poor, instructions contained in audit reports are disregarded and budgets are not properly prepared; nor is expenditure effectively controlled, with the result that there is waste and misapplication or squandering of money.

Misappropriation of panchayat funds is fairly common. No proper control is exercised by district boards and their presidents. The Inspector of Municipal Councils and Local Boards with his headquarters at Madras and the three Deputy Inspectors, all of whom have important duties in connexion with district boards and municipal councils, are unable to exercise that amount of control which is required to make the panchayats function properly. The inadequacy and ineffectiveness of supervision and advice are some of the main causes of the thoroughly unsatisfactory administration of most of the panchayats.

GENERAL NATURE OF LEGISLATION PROPOSED.

In order to remedy these defects and improve the administration of panchayats, the Government consider that they should be taken out of the ambit of the Local Boards Act and be governed by a separate enactment solely applicable to them. Powers of supervision and control over panchayats should, in the opinion of Government, be exercised in matters of purely local importance by Collectors, who are in close touch with local conditions, while powers of a general nature affecting all districts should be vested in the Board of Revenue as far as possible. Neither district boards nor the Inspector and his deputies will exercise any control over panchayats.

Provision is also made for the appointment of whole-time executive officers in large panchayats and part-time executive officers in small ones. This reform is necessary in the interests of efficiency, even more than in the case of municipalities where capable non-official administrators are more likely to be found.

It is proposed to make village headmen *ex officio* members of panchayats in order that their experience and influence may be at the disposal of the panchayats. They will also be eligible for election as presidents.

Provision is made for the nomination of a panchayat after dissolution, as a milder alternative to supersession, since,

though it may not be feasible or desirable to hold fresh elections, it may not be necessary or possible for financial reasons to adopt the extreme step of appointing a special officer. Provision is also made for the appointment of a nominated panchayat after a period of supersession. Instead of appointing a special officer when a panchayat is first constituted, it is proposed to appoint a panchayat by nomination for the first term, though the period may be reduced to a minimum period of one year. This will ensure that leading villagers are associated with the administration from the start. Nomination is further provided for where, due to faction or other causes, election fails.

In order to ensure that panchayats carry out their statutory obligation to provide amenities for the village, power is taken to direct a panchayat to make provision for and to execute or provide desirable public works and amenities.

In order that funds may be available for the provision of amenities it has been made obligatory on panchayats to levy both an additional land cess of 3 pies in the rupee and a house tax at or above the prescribed minimum rates.

Power is also taken to modify the budgets of panchayats so as to ensure that funds are spent in providing for the important needs of the village.

CONSTITUTION OF PANCHAYATS.

As at present, panchayats will be constituted on a voluntary basis. Ordinarily, the jurisdiction of a panchayat will be conterminous with the limits of a revenue village; but in special circumstances, a panchayat may be constituted for two or more revenue villages or for portions of such villages.

The maximum and minimum strength of panchayats is now laid down in the Local Boards Act at 16 and 8 respectively. It is proposed not to make any specific provision in the statute in regard to this matter, but to leave it to be regulated by rules which may be modified from time to time. The rules will prescribe a sliding scale for the strength of panchayats with reference to the population in their areas.

The village headman or if more than one revenue village is included within the jurisdiction of the panchayat, all the village headmen concerned will be *ex officio* members of the panchayat. The other members will be elected.

Where a panchayat has to be dissolved for maladministration, it may be replaced by a nominated body for a period not exceeding three years at a time. This will enable the administration to be carried on by a body of suitable persons belonging to the village instead of by a single special officer

who may be a stranger to the village. The exercise of this power will be subject to suitable safeguards. Again, when panchayats are constituted for the first time, provision has been made for the nomination of their members by the Collector for one term instead of placing the administration entirely in the hands of a special officer appointed for the purpose, as the existing Local Boards Act does. Elections may however be ordered after a period of one year instead of waiting for the expiry of the full term of the nominated members. In the case of nominated panchayats, the Collector will have power to reduce the number of such members, if he finds that suitable persons to fill all the seats are not available.

As under the Local Boards Act, the electoral roll of the Provincial Legislative Assembly will be the roll for panchayat elections also. Seats may be reserved in panchayats as at present for Muslims, Indian Christians and members of the Scheduled castes. The restriction under the existing Act that the number of reserved seats should not exceed one-fourth the sanctioned strength will be removed. The existing system of joint electorates will be continued.

Power has been taken to divide villages into wards and the intention is that there should be a division into wards where the number of electors exceeds 300. Where however the jurisdiction of a panchayat extends to more than one revenue village, each revenue village or part thereof will form a unit by itself, and separate representation will be given to it.

The term of office of members will be three years as at present. Those elected in casual vacancies will however hold office only for the residue of the term for which their predecessors would have held their offices, so that general elections will be necessary once every three years. These will take place in all cases in the same year as that in which elections to the district board concerned are held, thus ensuring compliance with the provisions of Madras Act XIII of 1935, which divides the Province into three groups of districts and provides for elections in each group taking place in a different year.

The qualifications and disqualifications of members will continue to be as at present under the Local Boards Act.

Officers and establishment.

There will be a president and a vice-president for each panchayat as at present. The village headman will be eligible for election to these offices.

There will also be an executive officer for each panchayat. He may be a full-time or a part-time officer. The intention is that in small panchayats the karnam of the village or some

other suitable person residing in the village should be appointed as a part-time executive officer. The executive officers, in their smaller sphere, will correspond to the commissioners of municipalities. They will exercise all the executive functions of the panchayat. Where there is a vacancy in the office of an executive officer, his functions will be exercised by the president.

The strength and the scales of pay of the staff of panchayats will be fixed by the Board of Revenue. Disciplinary control over the staff will be vested in the executive officer. The Collector will have power to transfer officers and servants of a panchayat to another panchayat in the same district, and the Board of Revenue to transfer them to a panchayat in another district. Transfers to a district board or municipality will be effected by the Government.

Procedure.

The powers of the president and members and the procedure at meetings of the panchayat will mostly be governed by provisions similar to those in the existing Act. Panchayats will have power to constitute committees as at present. There will also be provision for the constitution of joint committees of two or more panchayats or of a panchayat and other local authorities.

The annual administration reports of each panchayat will be submitted to the Collector who will prepare a consolidated review of the administration reports of all the panchayats in his district and submit it to the Board of Revenue. The Board of Revenue will then submit a general report on the administration of all panchayats in the Province to the Government. Similarly, the budgets of panchayats will be submitted to the prescribed officer (the Collector in the case of the larger, and the District Panchayat Officer in the case of the smaller, panchayats) and he will have power to make any alterations which may be necessary for the carrying on of all essential services.

Supervision and control.

Provisions have been included, as in the existing Local Boards Act, for the appointment of inspecting and superintending officers and the powers to be exercised by them, for the suspension or cancellation of resolutions, licences, etc.; for the removal of presidents and vice-presidents and for the dissolution or supersession of panchayats. Power has also been taken to remove a member of a panchayat who is guilty of misconduct in the discharge of his duties.

A contribution will be payable to the Government in respect of the charges incurred by them in connexion with the supervision and control of panchayats.

FUNCTIONS AND POWERS OF PANCHAYATS.

The functions of panchayats have been classified into two categories, namely, those which are obligatory and those which are optional. Village roads, drainage, lighting, sanitation and water-supply, fall under the former category while elementary education, libraries, markets, cart-stands, slaughter-houses and the planting and preservation of avenue trees fall under the latter. Only the primary objects on which panchayats may incur expenditure have been indicated in the Bill, and the Government or the Collector will have power to sanction other items of expenditure.

As regards elementary schools, panchayats will have power not only to maintain such schools of their own accord but also to manage elementary schools transferred to them by district boards, subject to the payment of a contribution by the latter. District boards, will continue to be responsible, as at present, for the maintenance of secondary and vocational schools in panchayat areas. Provision has been made for the classification of libraries as district and panchayat libraries.

While district boards will continue to be responsible for the opening and maintenance of hospitals and dispensaries in panchayat areas, panchayats may, if they so wish, have their own dispensaries or subsidize rural medical practitioners. Large panchayats may be required to employ sanitary inspectors and to enforce vaccination.

Provision has been made for the improvement of cattle by the purchase of stud-bulls and otherwise. Agricultural shows are a very useful method of educating villagers and provision has been made for the incurring of expenditure on such shows by panchayats. Power has also been given to panchayats to undertake the opening and maintenance of public cattle sheds. Such sheds will prevent one of the most frequent causes of disease and dirt in villages, namely, the habit of stalling cattle in residential houses.

Provision has also been made specifically for enabling panchayats to establish and maintain wireless receiving sets, playgrounds, sports clubs and centres of physical culture.

The control of village forests, irrigation works and other matters may, as in the existing Act, be transferred to panchayats. It has been made clear that in the case of kudimaramat, only the villagers' duty of executing kudimaramat should be transferred to the panchayat.

Power has been taken not only to transfer charitable endowments but also to resume such endowments if, for any reason, such resumption becomes necessary. Similarly, charitable inams may be assigned to, and resumed from, panchayats.

The village community in certain districts derives a considerable income from the sale of *vazhai* grass grown on tank beds, from saramdayam lands, from the grazing of ducks on fields after harvest, and from other similar sources. Provision has been made in the Bill for the taking over by the panchayat of these sources of income subject to the panchayat rendering the services for which they were intended. Such taking over will, however, require the previous approval of the Collector who may impose such conditions as he thinks fit. The Collector will not accord his approval unless it is in accordance with the wishes of a majority of the persons who have provided or managed the source of income.

TAXATION AND FINANCE.

Existing position.

Under section 75 of the existing Local Boards Act, panchayats may with the sanction of the district board levy a profession tax subject to the maximum rates laid down in the Act. Panchayats which were unions before 1930 and were levying a house tax, continue to levy that tax; other panchayats may levy the house tax only with the sanction of the Government. An additional house tax to form a fund for specific purposes may also be levied. Panchayats have also been given power to levy, with the sanction of the Government, other taxes which are suitable and convenient to the village. Among the taxes now being levied under this provision are *mahimai*, *kolagaram*, and *tharagu* which are essentially taxes on the purchase or sale of village produce or on produce brought for weighment at the time of sale in the village; the vehicle and animal tax; land tax levied on an acreage basis for kudimaramat purposes; and the family tax. The proceeds of the pilgrim tax levied in a panchayat area are now credited to panchayats. Besides these taxes, panchayats get 6 pies out of the 18 pies of land-cess levied under the Local Boards Act.

The income of most of the panchayats is very small. The only revenue common to all panchayats is that derived from the land-cess of 6 pies. Most of the panchayats do not attempt to levy other forms of taxation. Obviously, a panchayat with an income of less than Rs. 200 can do little to provide amenities.

Changes proposed.

It is therefore proposed to provide in the Bill that panchayats should in all cases be bound to levy two taxes, viz., (i) an additional land-cess of 3 pies in the rupee and (ii) a house tax at or above the prescribed minimum rates. The land-cess will be levied as an addition to the cess levied under the Local Boards Act. The house tax may be levied not only on the

basis of the annual or capital value as under the existing Act but also on any other basis prescribed as suitable ; it may be convenient and simpler in some villages to levy the tax on the nature of the house, namely, on its being terraced, tiled, thatched, etc.

Specific provision is also made in the Bill empowering a panchayat to levy a profession tax, a tax on vehicles and animals and a tax on advertisements The profession tax may be levied either on the basis of the income derived from the profession or on the nature of the profession. The tax on vehicles and animals will not be levied on motor vehicles and neither this tax nor the tax on advertisements is to exceed the maximum rates prescribed by the Government. The provision in the existing Act for the levy of any other tax which may be conveniently and suitably levied in the village has been retained.

Power has been taken to enable the Government to make rules providing for the acceptance of labour, of cartage or of any other service in lieu of a tax which has to be paid to the panchayat.

Panchayat funds and audit.

Every panchayat will have a panchayat fund. Provision has been made to the effect that the proceeds of any particular tax or additional tax levied for a special purpose should be utilized for that purpose only

The Government will appoint auditors of the accounts of panchayats, as under the existing Act. The intention is to appoint the Collector as the auditor for the smaller panchayats and that he should conduct the audit with the assistance of Panchayat Officers, but issue surcharge certificates himself. As regards the larger panchayats, the Examiner of Local Fund Accounts is to continue to be the auditor as at present with power to issue surcharge certificates. Suitable provisions will be made by rules for appeals against surcharge certificates.

PUBLIC SAFETY, CONVENIENCE AND HEALTH.

Provision has been made as in the District Municipalities Act for vesting all public water-courses, springs, tanks, etc., in the panchayat, but the Collector will have power to define or limit the extent of the panchayat's control. Works of irrigation will not however vest in the panchayat.

The panchayat will have power to levy special contributions from persons having control over places of pilgrimage if the pilgrimage necessitates the incurring of expenditure by the panchayat for sanitary and other purposes.

The provision in respect of markets, roads and encroachments thereon, cart-stands and slaughter houses will be on the lines of those found in the existing Act. Power has been taken to classify markets into district markets and panchayat

markets. In the case of district markets in a panchayat area, neither the panchayat nor its executive officer will exercise any functions. But the district board may be required to make a special contribution to the panchayat out of the income derived from the market. Similarly, the panchayat may be required to make a contribution to the district board in respect of a market held in the village and classified as a panchayat market.

The provisions for the control of offensive and dangerous trades and for the construction of factories and the installation of machinery in premises are based on those of the existing Act but have been made more elastic. The Government have however taken power to prescribe the offensive and dangerous trades for which licences may be required. Power has also been taken to make rules empowering the panchayat to set apart specified areas in the village for industrial purposes and the removal to such areas of factories, workshops, etc., which might already have come into existence in other areas.

The executive officer will have power, subject to an appeal to the panchayat, to grant licences under the Places of Public Resort Act; but in order to avoid multiplicity of jurisdiction, the executive officer is not to exercise such powers in respect of places which are to be wholly or partly used for the holding of cinematograph exhibitions. In such cases, both the licence under the Places of Public Resort Act and that required under the Cinematograph Act will be granted by the officers of Government.

General and Miscellaneous.

The provisions regarding licences and permissions, powers of entry and inspection, and limitation as well as those relating to suits and prosecutions against the panchayat, its president, executive officer and members follow the existing Act. The executive officer and members of panchayats will continue to be liable as at present for loss, waste or misapplication of panchayat property caused by their neglect or misconduct.

With a view to make the provisions of the Bill as elastic as possible, the rule making power has been enlarged so as to cover several matters for which specific provision has been made by the existing Act. All rules are subject to the condition of previous publication; but this condition is waived in respect of the first set of rules made under the Bill.

Power has been given to the panchayats, subject to the approval of the Board of Revenue, to frame suitable by-laws and enforce them by adequate penalties.

The provision in the existing Act, that all public roads, markets, wells, tanks, reservoirs and waterways should be open to the use and enjoyment of all persons, irrespective of their caste or creed, has been retained and the same penalty as in the existing Act has been prescribed for the breach of this provision.

Panchayats have been given a general power to farm out the collection of any fees due to them.

Provision has been made for the extension to any panchayat area of such of the provisions of the District Municipalities Act or of any rules made thereunder as may be considered to be necessary.

Power has been taken to allot functions vested in a district board to the panchayat and *vice versa*.

The power of Government to delegate their functions has been retained. To ensure that the delegate exercises his functions within the limits of his authority, his acts have been made subject to control and revision by the Government or by other persons empowered by them. The Government will also have power to control and revise the acts of any person so empowered.

The powers conferred on Collectors and the Board of Revenue by the Bill will be subject to the general revisional powers of the Government.

Consequential changes have been made in the Madras Public Health Act, 1939. In particular, it has been made clear that a panchayat governed by the Bill will be a "local authority" within the meaning of the Public Health Act and that the executive officer of the panchayat will be the "executive authority" as well as the "executive officer" as defined in that Act. Section 16 of the Public Health Act has been amended so as to make it clear that the "Health Officer" under that Act, that is to say, the Health Officer of the panchayat where there is one and the District Health Officer where the panchayat has no Health Officer of its own, may be entrusted with any function relating to any matter of public health which is assigned by this Bill to the executive officer. It may be mentioned here that under section 11 of the Public Health Act, the Government will have power to delegate the powers of the "Health Officer" to the executive officer of the panchayat. It is expected that considerable use will be made of this power, as it will not be possible for the District Health Officer effectively to exercise his functions under the Public Health Act in panchayat areas.

Suitable provision has been made by means of the rules included in Schedule III to adapt the provisions of the Bill to the case where panchayats have to be reconstituted for the first time after the Bill becomes law. Power has also been taken to modify the rules in Schedule III from time to time.

Unexpected difficulties may arise in first giving effect to the provisions of a Bill of this magnitude and power has accordingly been taken, to remove such difficulties, as and when they arise, by order of the Government.

(By order of His Excellency the Governor)

P. APPU NAIR,
Secretary to Government, Legal Department.
